

# INTRODUCING OUR VIRTUAL COMFORT HELPLINE

## HELP STAFF WITH DISCOMFORT AND PAIN

At this time home assessments may be impractical. Without a “proper” working setup regular assessments will uncover significant risk that, for a temporary period, you may not be able to address. Instead we’re launching a Virtual Comfort Helpline.

Staffed by qualified ergonomists and physiotherapists this helpline will provide a 20 minute coaching session for colleagues to help them work safely with the equipment and surroundings they have to lessen discomfort and reduce pain. Guidance and advice will be provided in follow-up documents as well.

**£50 per session**

**£40 for Charities and NHS**

For more information call **020 7469 0200**
